Students will practice and preview skills required for each grade. Summer camp is an opportunity for your child to stay "sharp" over the summer months and be better prepared for the next school year. Since it is a small group setting, students will get individual attention. Your child may enroll for math, reading, or both. We will be learning different skills in each session, so your child could attend both sessions. Each day's lessons will be taught with a different theme, which makes learning fun! Your child will be excited to find out what each new day of summer camp will bring. Camp will be held in the air-conditioned school library.
