

# CHICKEN POX ALERT

Your child *may have been* exposed to Chicken Pox.

## WHAT TO LOOK FOR:

- ✓ Flu-like symptoms, fever, loss of appetite.
- ✓ Red, flat spots appearing on the trunk or scalp.
- ✓ Spots become blisters with clear fluid within a few hours.
- ✓ Within 24 hours blisters pop and form scabs, which can last up to 20 days.
- ✓ New spots develop over 3-4 days.
- ✓ Incubation is **14 to 21** days.
